# NADUPURU VENKATA SAI KIRAN

+91 9392469115 | *sn317600@gmail.com* | *GitHub* | *LinkedIn*

## PROFESSIONAL SUMMARY

Recent engineering graduate with hands-on experience gained through practical projects and technical training. Familiar with cloud infrastructure, application deployment, automation, networking, and monitoring. Possess a strong foundation in programming, Linux, databases, and version control. Eager to apply technical knowledge in a professional environment and grow as an IT professional.

## TECHNICAL SKILLS

| | | |
|---|---|---|
| **Cloud Platforms** | : | AWS (EC2, IAM, S3, RDS, DynamoDB, Lambda) |
| **Infrastructure as Code** | : | Terraform, AWS CloudFormation |
| **CI/CD & Automation** | : | Jenkins, Git, GitHub, AWS CLI |
| **Containers** | : | Docker, Amazon ECR, Amazon ECS, Fargate |
| **Networking** | : | VPC, Public/Private Subnets, Route Tables, Security Groups, NACLs, NAT Gateway, Internet Gateway, Load Balancing |
| **Monitoring & Observability** | : | Amazon CloudWatch, EventBridge, SNS, Logs, Metrics |
| **Programming & Scripting** | : | Python, SQL, Bash |
| **Operating Systems** | : | Linux |

## PROJECTS

**Production-Style AWS 3-Tier Application Deployment** *GitHub*

*AWS, Terraform, Jenkins, Docker, ECR, EC2, ALB, RDS, CloudWatch*

- Designed and deployed a production-style 3-tier AWS architecture with separate public, private application, and database layers.
- Provisioned VPC, public/private subnets, route tables, security groups, NAT Gateway, ALB, EC2, ECR, and PostgreSQL RDS using Terraform.
- Containerized the application using Docker and stored application images in Amazon ECR for deployment on EC2.
- Automated infrastructure provisioning, Docker image builds, ECR image publishing, and application deployment workflows using Jenkins and GitHub.

**Serverless Employee Management Platform** *GitHub*

*AWS Lambda, API Gateway, DynamoDB, SNS, CloudWatch, Terraform, Jenkins*

- Developed a serverless employee management application with REST APIs for creating, reading, updating, and deleting employee records.
- Integrated Amazon API Gateway with Python AWS Lambda and DynamoDB for serverless application processing and data storage.
- Provisioned Lambda, API Gateway, DynamoDB, SNS, IAM, and CloudWatch using Terraform and automated deployment through Jenkins.

**AWS Monitoring & Auto-Healing Platform** *GitHub*

*CloudWatch, EventBridge, Lambda, SNS, EC2, Terraform, Jenkins*

- Built an AWS monitoring platform using CloudWatch alarms to monitor EC2 CPU utilization and trigger Amazon SNS alerts based on a 1-minute evaluation period for testing.
- Implemented event-driven EC2 recovery using EventBridge and Lambda to automatically restart stopped instances as part of the auto-healing workflow.
- Provisioned CloudWatch, EventBridge, Lambda, SNS, IAM, and networking resources using Terraform and automated deployment with Jenkins.

## INTERNSHIP

**Cloud Security Intern – RGUKT Srikakulam**

*Project: Micro-Segmented AWS Network Security using Terraform & Suricata* *GitHub*

- Designed a secure AWS network architecture with separate public, private application, and private database subnets using Terraform.
- Configured VPC networking, route tables, NAT Gateway, and Security Groups to control communication and isolate application and database workloads.
- Deployed Suricata as an open-source network threat detection tool to monitor traffic, identify suspicious activity, and strengthen network security.

## TRAINING

**AWS Cloud with DevOps Training** Rishi Online Training

- Gained hands-on experience with AWS cloud infrastructure including VPC, EC2, IAM, S3, ELB, RDS, Route 53, EFS, Lambda, and CloudWatch.
- Practiced Infrastructure as Code and cloud automation using Terraform, AWS CloudFormation, and AWS CLI, along with Linux administration and networking.
- Worked with Docker, Amazon ECS, Amazon ECR, Git, GitHub, and Jenkins for containerized application deployment, version control, and CI/CD pipelines.

## EDUCATION

**MVGR College of Engineering** 2021 – 2025
Bachelor of Technology – Electronics and Communication Engineering 8.35/10

**Sri Chaitanya Junior College, Visakhapatnam** 2019 – 2021
Class XII – MPC 95%

**Harshavardhana High School, Gajapathinagaram** 2018 – 2019
Class X 9.5/10

## CERTIFICATIONS

**Fundamentals of Cloud Security** *RGUKT Srikakulam*
*Micro-Segmented Cloud Network Architecture Using Open-Source Tools*

**AWS with DevOps Training** *Rishi Online Training*

## PERSONAL DETAILS

**Location:** Hyderabad, Telangana
**Languages:** English, Telugu
**Nationality:** Indian
